

ETHIOPIAN ELECTRIC POWER CORPORATION

INVITATION TO CONSULTANT

Chemoga –Yeda HPP EPC Contract Management Consultancy Service

1. The Ethiopian Electric Power Corporation (EEPCo) (Herein after referred to as the Employer) issues this notice of invitation to tender Consultancy Service for EPC contract management for Chemoga-Yeda stages I & II Hydro Power Project. Under this tender the services of a consulting company are being sought to manage the EPC contract, under the following scope of works but not limited to these:-
 - i. The Consultant shall carry out the Engineering Services of the Project throughout the entire contract period (including defect liability period) under and in close cooperation with the Owner's Project Office. The Consultant act as the Employers Representative.
 - ii. The Consultant shall prepare Dam Break Analyses and Emergency Preparedness Plan based on internationally accepted standard.
 - iii. The Scope of the Consultant's Engineering Services shall cover, but not necessarily be limited to, the tasks and duties stipulated in the TOR.
 - iv. In general, the Consultant shall provide overall and complete consultancy services to the Owner in the EPC Contract administration during the design and construction and defects liability periods of the Project as required.
 - v. The Consultant shall also ensure smooth completion of the Project in accordance with the EPC Contract and in conformity with internationally accepted standards and procedures as well as the state-of-the-art-technology prevailing in the Hydro Power Generation Construction industry.
 - vi. During the contract period, the Consultant shall mainly carry out:
 - Review and provision of "no objection" to civil, electro-mechanical and hydro-mechanical designs and other related works that may require approval.
 - Supervision to ensure required quality of the construction, erection and commissioning works of the Project.
 - Supervision and control of environmental activities during the construction, finalization as well as demobilization stages of the Project.
 - Checking, evaluating, discussing, and verification of payment invoices issued by the Contractor
 - Administration of claims arising from the Contract execution.
 - Preparation and Provision of acceptance certificates for works completed in accordance with the Contract requirement.

- Coordination of project activities in respect to achieving the planned implementation schedule
 - Preparation and submission of progress reports as necessary.
- vii. The Consultant will prepare the project cost and completion time forecast when the construction work is in progress by referring to the occurrence of unforeseen condition of the project and the price escalation of the construction materials and other related cost increasing issues.
